Medium-term CMUR direction and classical OLS precision, 2010–2022
A Direction: primary common two-sided 95%
MS agreement (n=12)
MS unresolved (n=15)
EU27_2020 (agreement)
B1: source-anchor slope (pp/year)
A: released annual slope (pp/year)
B Model-based precision: B1 wider in 27/27

A: released annual
B1: source anchors
Classical 95% OLS interval width (pp/year)
Unresolved denotes an unmet support criterion; interval widths are conditional on the classical OLS model.
